3.4 One Account Per Person

Each person may only maintain one active NuraMatch account. Creating multiple accounts to evade restrictions, bans, or for any other purpose is strictly prohibited and will result in the termination of all associated accounts.

- Harass, bully, threaten, intimidate, or harm any other user
- Share content that is abusive, hateful, discriminatory, or violent
- Engage in grooming, manipulation, coercion, or predatory behavior toward any user
- Solicit romantic or sexual interactions from other users
- Share explicit, pornographic, or sexually suggestive content

- Share personal contact information including phone numbers, social media handles, or addresses before both users have established trust through the platform
- Advertise products, services, or third party platforms
- Collect or harvest personal information about other users
- Use the platform for commercial purposes without our written consent
- Attempt to reverse engineer, scrape, or otherwise extract data from NuraMatch
- Introduce malware, viruses, or any malicious code into the platform

4.3 Content Standards

All content you share on NuraMatch including messages, journal entries, profile information, and check-ins must comply with these Terms. You are solely responsible for the content you share. We reserve the right to remove any content that violates these Terms without notice.

5. Safety Systems and Moderation

5.1 AI Moderation

NuraMatch uses artificial intelligence to monitor conversations in real time for safety concerns including grooming language, manipulation patterns, and escalating distress. By using NuraMatch you consent to this monitoring as described in our Privacy Policy.

5.2 Human Moderation

AI-flagged conversations may be reviewed by trained human moderators. By using NuraMatch you consent to this review occurring when our systems detect a potential safety concern. All moderators are bound by strict confidentiality obligations.

5.3 Trust Score System

NuraMatch maintains an internal trust score for each user based on behavioral signals including reports received, blocks, and conversation tone. This score is not visible to users and is used solely to protect the community. Users whose scores fall below acceptable thresholds may be subject to match restrictions, shadow restrictions, or account termination.

5.4 Matching Safety Rules

NuraMatch enforces strict matching rules to protect vulnerable users. These rules are non-negotiable and enforced at the system level:

- Users in crisis are only matched with users who are okay and never with other crisis or struggling users
- Users with low trust scores have a restricted matching pool
- Recently reported users have a restricted matching pool
- Users who have previously blocked each other are permanently excluded from future matching

5.5 Crisis Intervention

When our systems detect language indicating potential crisis or imminent risk to life, NuraMatch will surface crisis resources prominently. In extreme circumstances and where required by applicable Canadian law, we may take additional steps to connect users with emergency services.

5.6 Reporting

You can and should report users who violate these Terms. Reports are anonymous and the reported user is not notified of the report or the reporter's identity. We take all reports seriously and will investigate and take appropriate action.

6. Matching and Connections

6.1 How Matching Works

NuraMatch uses an algorithm that considers your daily mood check-ins, trajectory over time, struggle categories, support preferences, and communication style to suggest a peer match. Matching is not guaranteed and depends on the availability of compatible users.

6.2 One Match Per Day

NuraMatch provides one suggested match per day following your daily check-in. The match updates the following day after a new check-in is completed or if you choose not to connect with the suggested match.

6.3 Ending Connections

You may end a connection at any time. When a connection is removed, the conversation history is deleted from both users' views. The removed user is not notified of the reason for the disconnection.

6.4 No Guarantee of Results

NuraMatch does not guarantee that peer connections will be helpful, therapeutic, or beneficial to your mental health. Peer support is a supplement to professional care and individual results vary significantly.

7. AI Companion

NuraMatch provides an AI-powered companion chat when no human match is available or between matches. The AI companion is designed to provide general emotional support and conversation.

The AI companion is not a therapist, counselor, or mental health professional. It does not provide clinical advice, diagnosis, or treatment. The AI companion is powered by third party AI services and its responses, while designed to be supportive, may not always be appropriate for your specific situation.

If you are in crisis, please use the crisis resources provided in the app rather than relying on the AI companion.

8. User Content

8.1 Your Content

You retain ownership of the content you create on NuraMatch including journal entries, profile information, and messages. By submitting content to NuraMatch you grant us a limited, non-exclusive, royalty-free license to use, store, and display your content solely for the purpose of operating and improving our Services.

8.2 Private Journal Entries

Private journal entries and personal notes are stored securely and are not accessible to other users, NuraMatch staff, or administrators. They are never used for any purpose other than displaying them back to you.

8.3 Content You Share With Matches

Messages and content you share with matched users are visible to those users within the NuraMatch platform. You should exercise judgment about the personal information you choose to share. NuraMatch is not responsible for how other users may use or share information you voluntarily disclose to them.

8.4 Prohibited Content

You may not post content that violates any applicable law, infringes the rights of any third party, or violates these Terms. We reserve the right to remove any content without notice and to terminate accounts that repeatedly violate these standards.

9. Intellectual Property

9.1 NuraMatch Intellectual Property

NuraMatch and its original content, features, functionality, design, logos, and trademarks are owned by NuraMatch and are protected by applicable intellectual property laws. You may not reproduce, distribute, modify, create derivative works of, publicly display, or commercially exploit any NuraMatch content without our express written permission.

9.2 Feedback

If you provide us with feedback, suggestions, or ideas about NuraMatch, you grant us the right to use that feedback without restriction or compensation to you. We appreciate all feedback and use it to improve the platform.

10. Third Party Services

NuraMatch integrates with third party services including OpenAI, Google Firebase, and others as described in our Privacy Policy. Your use of NuraMatch is subject to those third parties' terms of service and privacy policies in addition to these Terms.

NuraMatch may display links to external mental health resources, articles, and crisis services. We do not endorse and are not responsible for the content, privacy practices, or availability of those external resources.

14.3 Effect of Termination

Upon termination, your right to use NuraMatch immediately ceases. We may retain certain information as required by law or for legitimate safety purposes as described in our Privacy Policy. Provisions of these Terms that by their nature should survive termination will survive.

15. Mental Health Crisis Protocol

NuraMatch takes crisis situations extremely seriously. If you or someone you are connected with appears to be in imminent danger or crisis:

- Contact emergency services (911) immediately if there is imminent risk to life
- Use the crisis resources available in the app including the 988 Suicide and Crisis Lifeline
- Use the in-app reporting feature to alert our moderation team

NuraMatch's automated systems are designed to detect crisis signals and surface resources. However these systems are not infallible and are not a substitute for professional crisis intervention. NuraMatch is not responsible for outcomes resulting from mental health crises that occur while using the platform.

By using NuraMatch you acknowledge that peer support has inherent limitations and that crisis situations require professional intervention that NuraMatch is not equipped to provide.

Any dispute arising from these Terms or your use of NuraMatch will first be subject to good faith negotiation between the parties. If negotiation fails, disputes will be resolved through binding arbitration in Toronto, Ontario, Canada in accordance with applicable arbitration rules.

Nothing in this section prevents either party from seeking injunctive or other equitable relief from a court of competent jurisdiction where necessary to protect intellectual property rights or prevent irreparable harm.

- Notify you through a prominent in-app notice
